\$25,000

Generally only suitable for installation within term breaks or school holiday breaks

Optional Upgrades And Extras Available

- Assembly Systems

Install separate local PA systems for assemblies in your COLA or quad at the same time as your main system and SAVE.

- Complex Timers

Upgrade to 365 day timer—each day can be programmed separately
Upgrade to 4 channel timer—three separate "Line up" songs can be independently programmed to play

- Master Air Conditioner Control (M.A.C.C.)

Control all your room air conditioners in your school from one single timed point in the main office
Uses same reliable cabling as your PA / Intercom system
Installation typically pays for itself in around 2 ~ 5 years
Available with all new PA systems or retrofit to existing Primary "Total School Communication" systems

Typical Costs

From around \$2500 per area depending on equipment

TR644 Timer add ~ \$650

Add approx ~ \$6000 for average school with 15~20 rooms
